

Technology Support Specialist

Okeechobee Shooting Sports currently has an opening for a technology support specialist. This is a hands on job for someone who likes to build and service both hardware and software technology solutions.

Duties include:

- Maintaining the POS system and hardware
- Video displays
- Gate operators
- Building automation and controls
- Robotic target systems
- Wireless networks as well as other campus wide systems

There is always something to do and a new project or idea to take on. If you like technology, are creative, and love making things work in a positive environment this may be the job for you.
